Congressional analytics

119th Congress

Volume, movement and outcome across federal legislation. The 119th Congress, still sitting, measured against the 13 on record from the 107th forward.

0.71% of bills became law

19,841 bills introduced and 140 enacted so far, already more bills than any completed Congress. Enactment across completed Congresses averages 2.89%. This one is still sitting, and bills take time to clear both chambers, so its rate climbs through the session.

Enactment rate by Congress

107th to 119th

107th

119th

Bills introduced	Laws enacted	Roll-call votes	Enactment rate
19,841	**140**	**1,591**	**0.71%**
Still accruing	Counting while the Congress sits	Every recorded vote	Laws as a share of bills

Sections

Activity	Volume, action density and policy breadth	19,841 bills, 140 laws
Legislators	Sponsorship, coalitions and outcomes	555 members served
Committees	Referral concentration and throughput	45 receiving bills
Votes	Margins, party pressure and participation	1,591 roll calls
Historical trends	Every tracked Congress	13 Congresses

The series runs from the 107th Congress to the 119th, 13 in all. The 119th is still sitting, so its figures move as records publish.
