Summary (as of Aug 1, 2002)

Pancreatic Islet Cell Transplantation Act of 2002 - Amends the Public Health Service Act to include pancreases procured by an organ procurement organization and used for islet cell transplantation or research to be counted toward organ procurement organization certification.

Establishes the Interagency Committee on Islet Cell Transplantation within the Department of Health and Human Services (HHS). Requires the Committee to study related issues, including Federal research funding, the effect of specified policies on transplantation, and data collection.

Instructs the Secretary of HHS to request the Institute of Medicine to provide a study of the impact of islet cell transplantation on juvenile diabetes patients, including their health and the treatment's cost-effectiveness.
