Summary (as of Sep 11, 2002)

Infertility Research Centers Act of 2002 - Amends the Public Health Service Act to mandate grants or contracts for two centers for improving methods of preventing infertility. Requires each center to: (1) conduct clinical and other applied research; (2) develop training protocols and conduct training; (3) develop model continuing education programs; and (4) disseminate information to professionals.

Allows funds to be used for: (1) stipends for training program enrollees; and (2) fees to clinical trial subjects.

Establishes a program of agreements with health professionals to conduct infertility prevention research in return for the Government repaying the professionals' educational loans.
