Summary (as of May 1, 2002)

Amends the Office of Federal Procurement Policy Act to direct the Administrator for Federal Procurement Policy to establish a Government-wide program to encourage and recognize contractor innovation and excellence in facilitating the defense of the United States against, or recovery from, terrorism or nuclear, biological, chemical, or radiological attack.

Requires the Administrator to: (1) issue agency announcements seeking innovative solutions to advance defense against or recovery from such an attack; (2) convene a multiagency technical assistance team to assess feasibility, scientific and technical merits, and estimated costs and submit each proposal to each executive agency whose mission most coincides with the proposal's subject matter; and (3) provide monetary awards in recognition of unique and innovative solutions.

Directs the Administrator to establish a pilot program under which the Secretaries of Defense, Energy, Commerce, Transportation, and the Treasury may test: (1) the innovative use of streamlined acquisition authorities and procedures; and (2) the feasibility of rapidly entering into contracts with private entities to carry out immediate solutions to key homeland security needs using commercial, off-the-shelf items and commercially available services.
