Coal Energy Research, Development, and Demonstration Act of 2003 - Instructs the Secretary of Energy to: (1) perform an assessment that identifies cost and performance goals of technologies permitting continued cost-competitive use of coal for electricity generation, as chemical feedstocks, and as transportation fuel in 2007, 2015, and the years after 2020; and (2) implement a technology research, development, and demonstration program to facilitate production and generation of coal-based power through methods and equipment under specified Federal law.

Prescribes technical criteria for a clean coal power initiative under which the Secretary shall fund coal energy generation projects that advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that on a full scale are in operation or have been demonstrated to date.

Instructs the Secretary to award competitive, merit-based grants to universities for the establishment of Centers of Excellence for Energy Systems of the Future.
