(This measure has not been amended since it was introduced. The summary has been expanded because action occurred on the measure.)

Asthmatic Schoolchildren's Treatment and Health Management Act of 2004 - (Sec. 3) Amends the Public Health Service Act (PHSA) to direct the Secretary of Health and Human Services, in making certain PHSA grants or any other asthma-related grant to a State, to give preference to States that require public elementary and secondary schools to allow students to self-administer medication to treat that student's asthma or anaphylaxis under specified conditions.

Provides that this Act does not create a cause of action or in any other way increase or diminish the liability of any person under any other law.

(Sec. 4) Expresses the sense of Congress: (1) commending the Centers for Disease Control and Prevention for identifying and creating strategies for addressing asthma within a coordinated school program; and (2) encouraging all schools to review these strategies and adopt policies that will best meet the needs of their student population.
