(This measure has not been amended since it was introduced. The summary has been expanded because action occurred on the measure.)

Expresses support for the goals and ideals of the World Year of Physics, as designated by the General Assembly of the International Union of Pure and Applied Physics. Encourages: (1) the American people to observe such Year as a special occasion for giving impetus to education and research in physics as well as to the public's understanding of physics; (2) all science-related government agencies and nongovernmental organizations, the private sector, and the media to highlight and give enhanced recognition to the role of physics in social, cultural, and economic development as well as its positive impact and contributions to society; and (3) all those involved in physics education and research to take additional steps, including strengthening existing and emerging fields of physics research and promoting the public's understanding of physics, to ensure that support for physics continues and that physics studies at all levels continue to attract an adequate number of students.

Actions Timeline

- **Sep 7, 2004:** Referred to the Committee on Commerce, Science, and Transportation.
- **Jul 8, 2004:** Received in the Senate.
