Summary (as of Feb 25, 2004)

Department of Energy University Nuclear Science, Engineering, and Health Physics Act - Instructs the Secretary of Energy, acting through the Office of Nuclear Energy, Science and Technology, to support a program to invest in human resources and infrastructure in the nuclear sciences, engineering, and health physics fields.

Directs the Secretary to: (1) promote interactions between university and Department of Energy (DOE) laboratories; and (2) provide student fellowships at DOE nuclear science laboratories.

Authorizes appropriations through FY 2008 that target: (1) graduate and undergraduate fellowships; (2) junior faculty research initiation grant programs; (3) nuclear engineering and education research programs; (4) communication and outreach related to nuclear science, engineering, and health physics; (5) refueling research reactors and instrumentation upgrades; (6) relicensing assistance; (7) reactor improvements through the innovations in the Nuclear Infrastructure and Education Program; and (8) university-DOE laboratory interactions.
