Authorizes the appropriate chairman of the Committee on the Budget to increase the allocation of outlays for the particular fiscal year for the appropriate committee by the amount of outlays corresponding to such excess obligation limitations if such committee reports a measure, or other specified legislative action is taken, establishing obligation limitations in excess of \$39.684 billion for FY 2004, or \$40.788 billion for FY 2005, for certain highway and transit programs, projects, and activities, if legislation has been enacted that satisfies specified conditions of this subtitle.

Declares the intent of Congress that the increase in new budget authority and outlays above the baseline assumed for highways and highway safety in section 103 of this resolution is derived from the resources available to the Highway Trust Fund.

Subtitle C: Adjustments to Fiscal Year 2003 Levels - (Sec. 421) Requires the appropriate adjustments in the allocations and aggregates of new budget authority and outlays to reflect the difference between such measure and the corresponding levels assumed in this resolution, if legislation making supplemental appropriations for FY 2003 is enacted before May 1, 2003.

Title V: Budget Enforcement - (Sec. 501) Sets forth prohibitions on advance congressional appropriations for FY 2004 and 2005. Provides for specified advanced appropriations for FY 2006.

(Sec. 502) Enables Congress, if in the absence of an extension of the discretionary spending limits and PAYGO requirements under the Balanced Budget and Emergency Deficit Control Act of 1985, to designate provisions of legislation as an emergency (meeting specified criteria) in order to exempt such measures from enforcement of this resolution with respect to the new budget authority, outlays, and receipts resulting from them.

(Sec. 503) Continues the supermajority enforcement requirements of the Congressional Budget Act of 1974 as a Senate rule through FY 2008.

(Sec. 504) Establishes specified discretionary spending limits in the Senate.

(Sec. 505) Revises provisions concerning the Pay-As-You-Go point of order rule in the Senate to: (1) extend its application through FY 2008; and (2) exclude from "direct-spending legislation" and "revenue legislation" any concurrent resolution on the budget or any legislation that affect the full funding of, and continuation of, the deposit insurance

guarantee commitment.

(Sec. 506) Requires all House budgetary legislation, as well as the joint explanatory statement accompanying the conference report on any concurrent resolution on the budget, to include in its estimated levels of new budget authority and total outlays, or allocations, any discretionary amounts provided for the Social Security Administration.

(Sec. 507) Sets forth requirements for application of allocations and adjustments made pursuant to this resolution.

(Sec. 508) Requires the appropriate chairman of the Committee on the Budget to make adjustments to the levels and allocations in this resolution upon the enactment of legislation providing a change in concepts or definitions.

Title VI: Sense of the Senate - (Sec. 601) Expresses the sense of the Senate that rates of compensation for civilian employees of the United States should be adjusted at the same time, and in the same proportion, as rates of compensation for members of the uniformed services.

(Sec. 602) Expresses the sense of the Senate that the levels in this resolution assume that within the discretionary allocation provided to the Committee on Appropriations the maximum Pell Grant award should be raised to the maximum extent practicable.

(Sec. 603) Expresses the sense of the Senate that the Senate: (1) should develop a long-term drought plan that effectively recognizes the recurring nature of drought cycles and adequately supports emergency and disaster assistance to livestock and agricultural producers hurt by drought; and (2) establish an agricultural reserve to fund these activities.

(Sec. 604) Expresses the sense of the Senate that: (1) the President, Congress, and the American people should work together to enact legislation to achieve a solvent and permanently sustainable Social Security system; and (2) Social Security reform must protect current and near retirees from any changes to Social Security benefits, reduce the pressure on future taxpayers and other budgetary priorities, provide benefit levels that adequately reflect individual contributions to the Social Security System, and preserve and strengthen the safety net for vulnerable populations.

(Sec. 605) Expresses the sense of the Senate that the functional totals in this resolution assume that any legislation enacted to provide economic growth for the United States should include at least \$30 billion for State fiscal relief over the next 18 months, of which at least half should be provided through a temporary increase in the Federal medical assistance percentage (FMAP).

(Sec. 606) Expresses the sense of the Senate that a commission should be established to review Federal domestic agencies and programs to provide Congress with recommendations to realign or eliminate Government agencies and programs that are duplicative, wasteful, inefficient, outdated, or irrelevant, or have failed to accomplish their intended purpose.

(Sec. 607) Expresses the sense of the Senate that the Senate should only consider legislation that increases highway spending if the legislation changes highway user fees to pay for such increased spending.

(Sec. 608) Expresses the sense of the Senate that the Congressional Budget Office shall consult with the Committee on the Budget of the Senate in order to prepare a report containing: (1) an estimate of the unfunded liabilities of the Federal Government; (2) an estimate of the contingent liabilities of Federal programs; and (3) an accrual-based estimate of the current and future cost of Federal programs.

(Sec. 609) Expresses the sense of the Senate that the functional totals in this resolution assume that: (1) expanded

access to health care coverage throughout the United States is a top priority for national policymaking; and (2) a significant portion of such expanded health care coverage funds should be dedicated to expanding access to health care coverage so that fewer individuals are uninsured and fewer individuals are likely to become uninsured.

(Sec. 610) Expresses the sense of the Senate that the Corps of Engineers requires additional funding to perform its vital functions and that the budgetary totals in this resolution assume that the level of funding provided for programs of the Corps will not be reduced below current baseline spending levels.

(Sec. 611) Expresses the sense of the Senate that Congress has recognized the importance of Native American health and has enacted and increased by 500 percent the funding for a program of research for the prevention and treatment of diabetes, a major disease in the Native American community.

(Sec. 612) Expresses the sense of the Senate that if tax relief measures are enacted in accordance with the assumptions in the budget resolution in this session of Congress, such legislation should include incentives to help rural communities attract individuals to live and work and to start and grow a business in those communities.

(Sec. 613) Expresses the sense of the Senate that children's graduate medical education should be funded at \$305 million.

(Sec. 614) Expresses the sense of the Senate that the funding levels in this resolution assume that the programs authorized under the Crime Identification Technology Act of 1998 will be fully funded at the levels authorized for FY 2004 through 2007.

(Sec. 615) Expresses the sense of the Senate that the functional totals in this resolution assume that \$20 million from funds designated for travel and administrative expenses from drug interdiction activities should be used for service-oriented targeted grants for the utilization of substances that block the craving for heroin and that are newly approved for such use by the Food and Drug Administration.

(Sec. 616) Expresses the sense of the Senate that the President should negotiate a free trade agreement with the United Kingdom.
