Summary (as of May 11, 2006)

Pharmaceutical Technology and Education Enhancement Act - Requires the Commissioner of Food and Drugs to expand and intensify certain research and education programs regarding pharmaceutical science and engineering through the National Institute for Pharmaceutical Technology and Education (NIPTE) and its member institutions. Requires such programs to focus on medical therapy development and manufacturing, analytical technologies, modeling, and informatics.

Requires the Commissioner to establish a Coordinating Committee to: (1) assist with and coordinate research and develop strategies for the rapid design, enhanced manufacturing process, and improved quality of new medical technology; and (2) develop a plan for supporting, through NIPTE and federal agency participants, research and education relating to medical technology development and manufacturing.
