Summary (as of Mar 2, 2006)

Pharmaceutical Products Price Equity Act - Directs the President to issue orders and regulations, and establish procedures and reporting requirements, to ensure that no pharmaceutical product is sold to any consumer in the United States at a price that is more than six percent above the average retail price at which such pharmaceutical product is sold in the five most industrialized, free-market countries, other than the United States. Sets forth enforcement and civil liability provisions.
