Summary (as of May 15, 2008)

Expresses the sense of the House of Representatives that, in order to meet our nation's growing long-term energy demands and maintain our economic viability in the world marketplace, any comprehensive and economically viable energy bill must address: (1) expanded use of renewable and alternative energy sources; (2) increased domestic refining capacity; (3) promotion and incentivization of increased conservation and energy efficiency; (4) expansion and promotion of additional research and development through methods such as public-private partnerships; and (5) enhanced consumer awareness and education regarding methods to increase energy efficiency and available alternative fuel sources.

Actions Timeline

- **Jun 3, 2008:** Referred to the Subcommittee on Energy and Environment.
- **May 16, 2008:** Referred to the Subcommittee on Energy and Air Quality.
- **May 15, 2008:** Introduced in House
- **May 15, 2008:** Referred to the Committee on Energy and Commerce, and in addition to the Committee on Science and Technology, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
