### Summary (as of Jun 20, 2008)

Establishes a national next-generation broadband network goal to bring, for households, businesses, and government offices, universal and affordable access to networks with the capability of transmitting data bidirectionally at: (1) 10 megabits per second by 2010; and (2) 100 megabits per second by 2015.

Directs relevant congressional committees to work with the President to develop a strategy to achieve the goal and begin, by the end of 2009, to enact specific legislation and adopt policies to implement the strategy.
