Summary (as of Sep 10, 2008)

Rural Veterans Access to Care Act - Directs the Secretary of Veterans Affairs to conduct a three-year pilot program under which a highly rural veteran who is enrolled in the system of patient enrollment of the Department of Veterans Affairs (VA) and who resides within a designated area of the Veterans Integrated Service Network may elect to receive covered health services through a non-VA health care provider. Defines a "highly rural veteran" as one who: (1) resides more than 60 miles from the nearest VA facility providing primary care services, more than 120 miles from a VA facility providing acute hospital care, or more than 240 miles from a VA facility providing tertiary care (depending on which services the veteran needs); or (2) otherwise experiences such hardships or other difficulties in travel to the nearest appropriate VA facility that such travel is not in the best interest of the veteran. Requires an annual program assessment report, during the three-year period, from the Secretary to the congressional veterans' committees, which shall include recommendations for continuing the program.
