Summary (as of Apr 18, 2007)

Subcontractor Protection Act - Amends the Small Business Act to require a Federal agency to include in contracts awarded pursuant to a subcontracting plan calling for the maximum practicable opportunity for participation by small businesses owned and controlled by socially and economically disadvantaged individuals (qualified small businesses) a clause providing for the withholding of a specified amount or percentage of the total contract if the contractor does not achieve the percentage goal for the utilization of the qualified small businesses. Directs the awarding agency to require the contractor to provide written justification for not entering into a subcontract as required under the plan. Directs the Small Business Administration (SBA) to establish a telephone line or other electronic means of communication through which a qualified small business may inform the SBA of any concerns regarding major deviations by prime contractors from the use of such qualified small businesses.

Requires the consideration of the use of such qualified small businesses as subcontractors when determining a contractor's past compliance with other subcontracting plans.
