Summary (as of Sep 24, 2008)

(This measure has not been amended since it was passed by the House on October 29, 2007. The summary of that version is repeated here.)

Dam Rehabilitation and Repair Act of 2007 - Amends the National Dam Safety Program Act to require the Federal Emergency Management Agency (FEMA) to establish a program to provide grant assistance to states for use in rehabilitating publicly-owned dams that fail to meet minimum safety standards and pose an unacceptable risk to the public (deficient dams).

Sets forth provisions regarding procedures for grant awards and fund allocation. Requires: (1) states receiving grants under this Act to comply with standards applicable to financial contributions for emergency preparedness purposes under the Robert T. Stafford Disaster Relief and Emergency Assistance Act; and (2) FEMA to develop a risk-based priority system for identifying deficient dams for which such grants may be made. Limits the federal share of rehabilitation costs to 65%. Authorizes appropriations.

Actions Timeline
