Summary (as of Nov 15, 2007)

Encourages health care providers to reduce the rate of occurrence of diabetes and its complications by engaging in a program to prevent, detect, and treat the disease, including through the use of: (1) a treatment regimen that includes minimum clinical practice recommendations published by the American Diabetes Association on January 1, 2007; and (2) measurements of body weight and other risk factors.

Commends U.S. health care providers for their commitment to countering the diabetes epidemic.
