111 HR 1853	Identical bill	Sep 16, 2010: Subcommittee Hearings Held.

Withdraws approximately 512 acres of covered land in Arizona (consisting of approximately 300 feet of the crest of the Craigin Dam and associated spillway, the reservoir pool of that Dam, and a specified corridor of land) from all forms of: (1) entry, appropriation, or disposal under the public land laws; (2) location, entry, and patent under the mining laws; and (3) disposition under all laws pertaining to mineral and geothermal leasing or mineral materials.

Grants the Secretary of the Interior, acting through the Commissioner of Reclamation, exclusive jurisdiction to manage the Craigin Project in accordance with the Arizona Water Settlements Act. Defines the "Craigin Project" as the Craigin Dam, its reservoir pool, and any pipelines, linear improvements, buildings, hydroelectric generating facilities, priming tanks, transmission, telephone, and fiber optic lines, pumps, machinery, tools, appliances, and other Salt River Project Agricultural Improvement and Power District or Bureau of Reclamation structures and facilities used for the Project. Requires that Secretary and the District to ensure the compliance of each activity carried out at the Project with each applicable federal environmental law and coordinate with appropriate federal agencies in ensuring compliance.

Grants the Secretary of Agriculture, acting through the Chief of the Forest Service, administrative jurisdiction over land management activities on the covered land and other appropriate management activities that do not conflict with, or adversely affect, the operation, maintenance, or replacement (including repair) of the Project, as determined by the Secretary of the Interior.

Authorizes the Secretary of Agriculture and the Secretary of the Interior, in coordination with the District, to enter into an agreement under which the Secretary of Agriculture may: (1) undertake any other appropriate management activity in accordance with applicable law that will improve the management and safety of the covered land and other land managed by the Secretary of Agriculture if the activity does not conflict with, or adversely affect, the operation, maintenance, or replacement (including repair) of the Project, as determined by the Secretary of the Interior; and (2) carry out any emergency activities, such as fire suppression, on the covered land.

Actions Timeline

- **Aug 5, 2010:** Committee on Energy and Natural Resources. Reported by Senator Bingaman with an amendment in the nature of a substitute. With written report No. 111-255.
- **Aug 5, 2010:** Placed on Senate Legislative Calendar under General Orders. Calendar No. 525.
