(Sec. 103) Allows the DNI to authorize employment of civilian personnel in excess of the number authorized for FY2010 (by not more than 5%) when necessary for the performance of important intelligence functions. Authorizes the DNI to convert to performance by intelligence community (IC) personnel activities currently performed by contractor employees. Requires notification of the congressional intelligence committees in either case. Requires the DNI to establish guidelines to govern the treatment under authorized personnel levels of employment or assignment in: (1) a student program, trainee program, or similar program; (2) a reserve corps or as a reemployed annuitant; or (3) details, joint duty, or long term, full-time training.

(Sec. 104) Authorizes appropriations for the Intelligence Community Management Account of the DNI for FY2010, as well as for full-time personnel for elements within such Account.

(Sec. 105) Prohibits the authorization of appropriations by this Act from being deemed to constitute authority for the conduct of any intelligence activity not otherwise authorized by the Constitution or laws of the United States.

Title II: Central Intelligence Agency Retirement and Disability System - (Sec. 201) Authorizes appropriations for FY2010 for the Central Intelligence Agency Retirement and Disability Fund.

Title III: General Intelligence Community Matters - Subtitle A: Personnel Matters - (Sec. 301) Permits appropriations authorized by this Act for salary, pay, retirement, and other benefits for federal employees to be increased by such additional or supplemental amounts as may be necessary for increases in such compensation or benefits authorized by law.

(Sec. 302) Allows a federal officer or employee or member of the Armed Forces to be detailed to the staff of an element of the IC funded through the National Intelligence Program from another element of the IC or the federal government on a reimbursable or nonreimbursable basis, as jointly agreed upon by the heads of the receiving and detailing element, for a period of up to three years.

(Sec. 303) Amends the National Security Act of 1947 to authorize the DNI to: (1) convert competitive service positions within an IC element to excepted service positions as necessary to carry out intelligence functions; and (2) establish the classification and rates of pay for the converted positions. Allows the head of a department or agency, at the request of the DNI, to establish new positions in the excepted service within an element of such department or agency that is part of the IC, and authorizes the DNI to establish the classification and rates of pay for such new positions. Requires prior notification to the intelligence committees of any conversion or establishment under this section. Authorizes the DNI to fix

rates of pay for critical positions in the IC in excess of the applicable limit, up to the rate payable for level II of the Executive Schedule. Allows the DNI to authorize one or more IC elements to adopt compensation authority, performance management authority, and scholarship authority authorized for another IC element, if the DNI: (1) determines that such adoption would improve IC management and performance; and (2) notifies the intelligence communities at least 60 days in advance.

Requires the DNI to: (1) give due consideration to such assessments when developing and determining the annual NIP budget; and (2) provide the intelligence committees a copy of each assessment, along with a proposed schedule for

subsequent assessments. Provides limits on the obligation of funding for major systems for which such assessments are required, if such assessments are not timely submitted.

(Sec. 322) Prohibits, after February 1, 2010, any funds appropriated to an IC element from being obligated for an IC business system transformation having a total cost in excess of \$1 million unless: (1) the transformation is certified as complying with intelligence enterprise architecture and other DNI policy or standards, or is necessary to achieve a national security objective or to prevent a significant adverse effect on an essential project; and (2) the certification is approved by appropriate authorities within the IC business system transformation governance structure. (Sec. 353) Prohibits the reprogramming or transfer of funds until 90 days after a request for additional information about the reprogramming or transfer is made by one of the intelligence committees. Allows the President to authorize such reprogramming or transfer, regardless of the 90-day review period, if the President certifies to such committees that the reprogramming or transfer is necessary to fulfill an urgent operational requirement (excluding cost overruns) and that it is necessary to carry out the activity prior to completion of the review period.
