Chief Technology Officer Act of 2009 - Establishes in the Executive Office of the President an Office of the Federal Chief Technology Officer (FCTO).

Includes among the functions of the FCTO to: (1) analyze and advise the President and agency officials regarding the government's information technology infrastructures, strategy, and use; (2) ensure the security and privacy of the federal information technology infrastructure and networks; (3) promote technological innovation in the federal government; (4) establish public-private sector partnership initiatives; and (5) lead specified interagency efforts, including a planning process to ensure the use of best-in-class technologies, the sharing of best practices, and improvement in the use of technology in support of government requirements.

Requires the Office to serve as a source of analysis and advice for the President and agency heads regarding major government policies, plans, and programs associated with information technology.

Requires the FCTO to: (1) be a member of the Domestic Policy Council; and (2) publish an annual report on programs to promote technological innovations, recommendations for policies to encourage the generation of such innovations, and information on the Office's activities and accomplishments.
