Blueprint for Health Act of 2009 - Requires the Secretary of Health and Human Services (HHS) to create the Blueprint for Health program to provide a national infrastructure for disease prevention, health promotion, and education about, and better management of, chronic conditions. Sets forth elements to be included in the Blueprint, including: (1) a strategic plan for designing an integrated medical home model of care; (2) chronic management programs; (3) incentives for the prevention of chronic diseases, including investments in health and sustainable local and regional food systems; and (4) a plan for the assessment of current health information technology initiatives. Requires the Secretary to convene an executive committee to advise the Secretary on the creation and implementation of the Blueprint for Health.

Requires the Blueprint for Health to promote the effective, efficient, national use of health care information technology initiatives. Directs the Secretary to commission an assessment that examines the implementation of the health information technology provisions of the American Recovery and Reinvestment Act of 2009.

Requires the Secretary to recommend to Congress legislation to implement the Blueprint for Health, including the establishment of programs designed to enhance primary care, promote multidisciplinary care coordination, prevent disease, improve quality, contain costs, more effectively manage chronic illness, and promote good health and prevention initiatives.

Actions Timeline

- **May 21, 2009:** Referred to the Subcommittee on Health.
- **May 20, 2009:** Introduced in House
- **May 20, 2009:** Referred to the House Committee on Energy and Commerce.
