Leadville Mine Drainage Tunnel Remediation Act of 2009 - Amends the Reclamation Projects Authorization and Adjustment Act of 1992 to repeal a provision requiring construction of a water treatment plant to treat effluent discharged from the Leadville Mine Drainage Tunnel, Colorado.

Directs the Secretary of the Interior to participate in the implementation of the operable unit 6 remedy for the California Gulch Superfund Site, including, but not limited to, the following actions: (1) treating water behind any blockage or bulkhead in the Tunnel; and (2) managing and maintaining the mine pool behind such blockage or bulkhead at a level that precludes surface runoff and releases and minimizes the potential for Tunnel failure due to excessive water pressure.

Requires the Secretary to take necessary steps to repair or maintain the Tunnel's structural integrity to prevent Tunnel failure and to preclude uncontrolled release of water from the Tunnel.

Actions Timeline

- **Oct 13, 2009:** Read twice and referred to the Committee on Energy and Natural Resources.
- **Sep 30, 2009:** Received in the Senate.
- **Sep 29, 2009:** Ms. Bordallo moved to suspend the rules and pass the bill, as amended.
