Requires the Administrator to publish notice and specified reports and provide the public an opportunity to comment on certain POPs Convention and LRTAP POPs Protocol proposals, risk profiles, decisions, and recommendations.

Requires any person distributing certain chemical substances or mixtures included in the PIC Convention to comply with export conditions and notification requirements. Requires pesticides or active ingredients that are subject to certain notice requirements under the PIC Convention to have certain labeling information, safety data sheets, and documentation of customs codes assigned by the World Customs Organization.

Directs the Administrator, with the concurrence of the Secretary of State, to notify the public about PIC Convention decisions to list pesticides and any foreign state's conditions or restrictions applicable to the importation of the pesticide from the United States.
