Clean Energy, Community Investment, and Wildlife Conservation Act - Requires the Secretary of the Interior to establish a wind and solar leasing pilot program for land administered by the Bureau of Land Management (BLM) or the Forest Service. Directs the Secretary to: (1) select at least two sites for the development of a solar energy project and two sites for the development of a wind energy project from sites on such land for which there is likely to be a high level of industry interest and that have comparatively low value for other resources; (2) offer each site for competitive leasing to qualified bidders; and (3) offer a short-term lease followed by a long-term lease for data collection on at least one site.

Requires the Secretary: (1) not later than two years after enactment of this Act, to determine whether to establish leasing programs for wind and solar energy on such land; (2) to establish a leasing program if he or she determines that the program is in the public interest and provides an effective means of developing such energy on federal land; or (3) to report to Congress on the reasons that such program should not be established.

Sets forth provisions concerning: (1) the issuance and terms of such leases; and (2) the transition from the use of rights-of-way to leases for the development of wind or solar energy on such land. Prohibits the Secretary from issuing any lease on National Forest System land over the objection of the Secretary of Agriculture.

Requires: (1) leases under such program to be issued on a competitive basis, with specified exceptions; (2) such leasing program to be carried out in a manner that provides for safety, protection of the environment, prevention of waste, diligent development of the resource, protection of fish and wildlife habitat, and efficient use of water resources; and (3) a lease for a wind or solar project with a total capacity of 100 megawatts or more to be for not less than 30 years.

Requires the Secretary to establish: (1) best management practices to ensure the sound, efficient, and environmentally responsible development of wind and solar resources on such land in a manner that will minimize consumptive water use and avoid, minimize, and mitigate impacts to fish and wildlife habitat and ecosystem function; and (2) payments to ensure a fair return to the United States, states, and counties for any right-of-way or lease issued for a wind or solar project on such land.

Establishes in the Treasury the Renewable Energy Mitigation and Fish and Wildlife Fund to be administered by the Secretary for mitigating impacts of renewable energy on federal land and carrying out activities authorized under the Land and Water Conservation Fund Act of 1965.

Actions Timeline

- **Nov 16, 2010:** Referred to the Subcommittee on Department Operations, Oversight, Nutrition and Forestry.
- **Jul 16, 2010:** Referred to the Subcommittee on National Parks, Forests and Public Lands.
- **Jul 16, 2010:** Referred to the Subcommittee on Energy and Mineral Resources.
- **Jul 16, 2010:** Referred to the Subcommittee on Insular Affairs, Oceans and Wildlife.
- **Jul 14, 2010:** Introduced in House
- **Jul 14, 2010:** Referred to House Natural Resources
- **Jul 14, 2010:** Referred to the Committee on Natural Resources, and in addition to the Committee on Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
- **Jul 14, 2010:** Referred to House Agriculture
