### Summary (as of Jul 29, 2010)

Amends the Internal Revenue Code to allow: (1) a 30% qualifying advanced energy project tax credit for investment in utility poles or supports made from composite materials which are comprised of at least 15% recycled materials and are fully recyclable; and (2) a business-related tax credit for a qualified composite pole placed in service after December 31, 2010, and before January 1, 2016. Defines "qualified composite pole" as any pole which is used to support one or more wires to transmit or distribute electricity, which is comprised of not more than 85% virgin materials, and not less than 90% of which can be recycled.
