Expresses the sense of Congress that the United States Fish and Wildlife Service (USFWS) should incorporate consideration of the effects of global warming and sea-level rise into the comprehensive conservation plan for each coastal national wildlife refuge.

Calls for such plans to address how global warming and sea-level rise will affect: (1) the ecological integrity, archaeological and cultural values, and distribution, migration patterns, and abundance of fish, wildlife, and plant populations and related habitats of the refuge; (2) areas within the refuge that are suitable for use as administrative sites or visitor facilities; and (3) opportunities for compatible wildlife-dependent recreational uses of the refuge.

Calls for the Director of the USFWS to conduct an assessment of the potential impacts of global warming and sea-level rise on coastal national wildlife refuges.

Actions Timeline

- **Sep 1, 2011:** Recalled by full committee.
- **Feb 10, 2011:** Referred to the Subcommittee on Fisheries, Wildlife, Oceans, and Insular Affairs.
- **Feb 9, 2011:** Introduced in House
