Summary (as of Sep 8, 2011)

Pipeline Modernization for Safety Act of 2011 - Directs the Secretary of Transportation (DOT) to establish integrity verification requirements for gas or hazardous liquid pipeline facilities.

Directs the Secretary to require an operator of a pipeline facility that contains a pipeline segment without a documented pressure test to: (1) hydro-test or replace the pipeline segment; and (2) report to the Secretary any increase in pressure in the pipeline segment that exceeds the maximum allowable operating pressure, including the cause for the increase and any remedial action taken to address it.

Actions Timeline

- **Sep 20, 2011:** Referred to the Subcommittee on Energy and Power.
- **Sep 9, 2011:** Referred to the Subcommittee on Railroads, Pipelines, and Hazardous Materials.
- **Sep 8, 2011:** Introduced in House
- **Sep 8, 2011:** Referred to the Committee on Transportation and Infrastructure, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
