Summary

(as of Dec 18, 2012)

Expresses the sense of the House of Representatives that the United States should: (1) adopt a target of 350 parts per million of atmospheric carbon dioxide by which to evaluate domestic and international climate change policies, and (2) develop domestic and international policies that are sufficiently flexible to accommodate advancing science in the event that a change in that target becomes warranted.

Actions Timeline

- **Dec 18, 2012:** Introduced in House
- **Dec 18, 2012:** Referred to the Committee on Energy and Commerce, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
