Directs the Attorney General to establish such Committee as an interagency committee headed by the Administrator of the Drug Enforcement Administration (DEA) and comprised of scientific experts in the fields of chemistry and pharmacology from DEA, the National Institute on Drug Abuse, the Centers for Disease Control and Prevention (CDC), and any other federal agency determined by the Attorney General to be appropriate.

Requires the Committee to designate, and establish and maintain a list of, controlled substance analogues determined to be similar to a schedule I or II controlled substance in either chemical structure or predictive effect on the body in such a manner as to make it likely that the substance will, or can be reasonably expected to, have a potential for abuse. Directs the Administrator to publish a description of each designation made by the Committee.
