### Summary (as of Nov 13, 2013)

**(This measure has not been amended since it was introduced. The summary of that version is repeated here.)**

School Access to Emergency Epinephrine Act - Amends the Public Health Service Act, with respect to asthma-related grants for child health services, to give an additional preference to a state that allows self-administration of asthma and anaphylaxis medication and makes a certification concerning the adequacy of the state's civil liability protection law to protect trained school personnel who may administer epinephrine to a student reasonably believed to be having an anaphylactic reaction.

Requires elementary and secondary schools in such a state to: (1) permit trained personnel to administer epinephrine to a student reasonably believed to be having such a reaction, (2) maintain a supply of epinephrine in a secure location that is easily accessible to trained personnel for such treatment, and (3) have in place a plan for having on the school premises during operating hours one or more designated personnel trained in administration of epinephrine.
