10 Million Solar Roofs Act of 2014 - Requires the Department of Energy (DOE) to establish a program to provide rebates for the purchase and installation of photovoltaic systems with the goal to install 10 million systems with a cumulative capacity of at least 60,000 megawatts over the next ten years.

Includes within the photovoltaic system solar panels, roof support structures, inverters (to convert the current output from a solar panel into a frequency that can be fed into the electrical grid), an energy storage system if it is integrated with the system, and any other hardware necessary for the installation of a system.

Actions Timeline

- **Sep 18, 2014:** Introduced in Senate
- **Sep 18, 2014:** Read twice and referred to the Committee on Energy and Natural Resources.
