Transparency in Regulatory Analysis of Impacts on the Nation Act of 2013 - Requires the President to establish the Committee for the Cumulative Analysis of Regulations that Impact Energy and Manufacturing in the United States to analyze and report on the cumulative and incremental impacts of covered rules and actions of the Environmental Protection Agency (EPA) concerning air, waste, water, and climate change for each of calendar years 2018, 2023, and 2030.

Requires such analysis to include: (1) estimates of the impacts of covered rules promulgated as final regulations on or before January 1, 2014, in combination with covered actions on U.S. economic competitiveness, electricity prices, fuel prices, employment, and the reliability and adequacy of bulk power supply in the United States; and (2) a discussion and assessment of the cumulative impact on consumers, small businesses, regional economies, state, local, and tribal governments, local and industry-specific labor markets, and agriculture.

Includes among "covered rules" specified national standards for air quality, hazardous and solid waste, and water pollutants and other rules promulgated under specified provisions of the Clean Air Act on or after January 1, 2009.

Defines "covered action" as any action on or after such date by the EPA, a state, a local government, or a permitting agency as a result of the application of specified Clean Air Act (CAA) provisions with respect to an air pollutant that is identified as a greenhouse gas.

## **Actions Timeline**

---

- **Aug 2, 2013:** Referred to the Subcommittee on Water Resources and Environment.
- **Aug 2, 2013:** Referred to the Subcommittee on Energy and Power.
- **Aug 1, 2013:** Introduced in House
