## Summary (as of Oct 30, 2013)

---

Investing in Innovation for Education Act of 2013 - Amends the Elementary and Secondary Education Act of 1965 to direct the Secretary of Education to award competitive grants to local educational agencies (LEAs), educational service agencies, and nonprofit organizations that partner with an LEA or consortium of schools to support school innovations.

Requires at least 25% of the grant funds to be awarded for projects in rural areas.

Requires each grant applicant to demonstrate that it has partnered with at least one private entity that will provide matching funds. Allows the Secretary to waive the matching funds requirement upon a showing of exceptional circumstances.

Requires each grant to be used to address at least one of the following areas of school innovation:

- improving the effectiveness and distribution of teachers or principals,
- strengthening the use of data to improve teaching and learning,
- providing high-quality instruction that is based on rigorous standards and measuring students' proficiency using high-quality assessments that are aligned to those standards,
- turning around the lowest-performing schools,
- supporting the effective use of technology to improve teaching or principals and learning, and
- any other area of school innovation the Secretary chooses.

Directs the Secretary to establish performance measures for tracking each grantee's progress in: (1) improving the academic performance of public elementary and secondary school students, and specified subgroups of those students; and (2) implementing its project in rural schools, as applicable. Requires grantees to use grant funds to develop or expand strategies to improve high-need students' showing on those performance measures.

## Actions Timeline

---

- **Oct 30, 2013:** Introduced in House
- **Oct 30, 2013:** Referred to the House Committee on Education and the Workforce.
