113 S 1491	Related bill	Dec 19, 2013: Placed on Senate Legislative Calendar under General Orders. Calendar No. 278.

Amends the Energy Independence and Security Act of 2007 to authorize the Secretary of Energy to: (1) enter into cooperative agreements supporting dialogue and planning involving international partnerships between the Department of Energy (DOE), including DOE National Laboratories, and the government of Israel and its ministries, offices, and institutions; and (2) establish a joint United States-Israel Center based in an area of the United States with offshore energy development expertise to develop academic cooperation in energy innovation technology and engineering, water science, technology transfer, and analysis of geopolitical implications of new natural resource development.

Extends the grant program to support U.S.-Israel research, development, and commercialization of renewable energy or energy efficiency (as well as the related advisory committee). Expands the scope of covered energy under such program.

Expresses the sense of Congress that open dialogue and continued mechanisms for regular engagement encourages further U.S.-Israel public, academic, and private cooperation on energy security issues.

Directs the Secretary of Energy and the Secretary of State to seek to establish an Energy Cooperation Working Group within the semi-annual United States-Israel Strategic Dialogue.

States that the Group's purpose shall be to strengthen U.S.-Israel dialogue on: (1) advancing research, development, and deployment of renewable energy and energy efficiency; (2) identifying policy priorities associated with Israel's natural resources development; (3) identifying best practices for energy infrastructure cyber security; (4) leveraging natural gas resources to impact regional stability positively; (5) developing technical and environmental management of deep-water exploration and production; and (6) implementing coastal protection and restoration.

Actions Timeline

- **Dec 13, 2013:** Referred to the Subcommittee on Energy.
- **Dec 9, 2013:** Introduced in House
- **Dec 9, 2013:** Referred to the Committee on Science, Space, and Technology, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
