Tasks the Center with strengthening the safety and security of institutions of higher education (IHEs) by: (1) training IHE public safety personnel and their collaborative partners; (2) fostering relevant research; (3) collecting and disseminating information and best practices regarding campus safety; (4) developing protocols and best practices to prevent, protect against, and respond to dangerous and violent situations that threaten the campus community; and (5) promoting cooperation among public safety and emergency management personnel of IHEs and their collaborative partners, including law enforcement, emergency management, and mental health agencies.
