(This measure has not been amended since it was introduced. The summary of that version is repeated here.)

Reducing Regulatory Burdens Act of 2013 - Amends the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Water Pollution Control Act (commonly known as the Clean Water Act [CWA]) to prohibit the Administrator of the Environmental Protection Agency (EPA) or a state from requiring a permit under the CWA for a discharge from a point source into navigable waters of a pesticide authorized for sale, distribution, or use under FIFRA, or the residue of such a pesticide, resulting from the application of such pesticide.

Exempts from such prohibition the following discharges containing a pesticide or pesticide residue: (1) a discharge resulting from the application of a pesticide in violation of FIFRA that is relevant to protecting water quality, if the discharge would not have occurred but for the violation or the amount of pesticide or pesticide residue contained in the discharge is greater than would have occurred without the violation; (2) stormwater discharges regulated under the National Pollutant Discharge Elimination System (NPDES); and (3) discharges regulated under NPDES of manufacturing or industrial effluent or treatment works effluent and discharges incidental to the normal operation of a vessel, including a discharge resulting from ballasting operations or vessel biofouling prevention.
