Summary (as of Apr 22, 2015)

This bill directs the General Services Administration and the Department of Energy to develop plans for meeting goals for deep energy retrofits in federal buildings by 2020, 2030, and 2040. A deep energy retrofit is a project carried out in a federal building that results in energy savings in that building of at least 35%, and preferably at least 50%, relative to a baseline rate of energy use.

Actions Timeline

- **Apr 22, 2015:** Introduced in Senate
- **Apr 22, 2015:** Read twice and referred to the Committee on Environment and Public Works.
