Summary (as of Feb 26, 2015)

Chronic Kidney Disease Improvement in Research and Treatment Act of 2015

Amends title XVIII (Medicare) of the Social Security Act to revise Medicare payments for dialysis services provided to individuals with end stage renal disease (ESRD) and acute kidney injury. Extends the time period when a private health insurer, in determining benefits, cannot consider a group health insurance enrollee's ESRD or entitlement to Medicare coverage due to ESRD. Makes individuals with ESRD eligible for Medicare Advantage.

Allows dialysis facilities to provide kidney disease education services and allows physician assistants, nurse practitioners, or clinical nurse specialists to refer individuals to those services.

Requires the Department of Health and Human Services (HHS) to establish an ESRD Care Coordination program to provide higher Medicare payments to nephrologists, dialysis facilities, and other providers that reduce spending on ESRD by being part of a coordinated care organization.

Amends the Public Health Service Act to include dialysis as a service provided by the National Health Service Corps in health professional shortage areas. Makes nephrologists and non-physician practitioners who provide dialysis eligible for the National Health Service Corps Scholarship Program and Loan Repayment Program.

Requires the Government Accountability Office to submit a report identifying gaps in chronic kidney disease research and comparing research funding to expenditures on disease treatment. Requires HHS to study the causes of kidney disease and efforts to treat kidney disease in disproportionately affected minority populations.
