National Prostate Cancer Plan Act

Establishes in the Department of Health and Human Services (HHS) the National Prostate Cancer Council on Screening, Early Detection, Assessment, and Monitoring of Prostate Cancer to: (1) develop and implement a strategic plan for the accelerated development of diagnostic tools for prostate cancer, (2) review the effectiveness of diagnostic tools for prostate cancer, (3) coordinate prostate cancer research and services across federal agencies, (4) evaluate all active federal prostate cancer programs, and (5) ensure the inclusion of men at high risk for prostate cancer in clinical, research, and service efforts.

Directs the Council to submit annual reports. Requires the first report to include recommendations based on an evaluation of prostate cancer research and gaps in the development and validation of diagnostic tools for prostate cancer. Requires subsequent reports to include an outline for a national research plan, roles for specified agencies, an analysis of the disparities in the incidence and mortality of prostate cancer in high-risk men, and a review of the progress towards the realization of the strategic plan.

Terminates the Council on December 31, 2020.

Actions Timeline

- **Jan 21, 2015:** Introduced in Senate
- **Jan 21, 2015:** Read twice and referred to the Committee on Health, Education, Labor, and Pensions.
