(Under the Congressional Budget Act of 1974, reconciliation bills are considered by Congress using expedited legislative procedures that prevent a filibuster and restrict amendments in the Senate.)

Permits the chair to use the estimates to determine compliance with the Congressional Budget Act of 1974 and other budget enforcement controls.

(Sec. 407) Establishes a point of order against legislation with a net effect of increasing direct spending by more than \$5 billion in any of the four consecutive ten-year periods beginning in FY2026.
