## **Coal Cleanup Taxpayer Protection Act**

This bill amends the Surface Mining Control and Reclamation Act to prohibit the Office of Surface Mining and Reclamation Enforcement (OSMRE) and state regulatory authorities from accepting new self-bonds for coal reclamation. In addition, any existing self-bonds or corporate bonds utilized for coal reclamation are required to be converted to surety or collateral bonds.

The OSMRE may approve state or federal alternative coal mining bond programs that result in no greater risk of financial liability to the federal government than a surety or collateral bond program.

The bill also requires the Department of Interior to issue rules establishing limitations on surety bonds to minimize the financial liability to the federal or state government.

## **Actions Timeline**
