Independence at Home Act of 2016

This bill amends title XVIII (Medicare) of the Social Security Act to establish a permanent Independence at Home Medical Practice Program, under which a primary care practice shall be accountable for: (1) providing comprehensive, coordinated, continuous, and accessible care to applicable Medicare beneficiaries at home; and (2) coordinating health care across all treatment settings.

Subject to meeting specified quality performance standards, a participating practice is eligible to receive an incentive payment under the program if actual expenditures for applicable beneficiaries are less than the estimated spending target established by the Centers for Medicare & Medicaid Services (CMS).

CMS shall terminate a program agreement with a participating practice if the practice: (1) for the third of three consecutive years under the program, will not receive an incentive payment; or (2) fails to meet a minimum number of quality performance standards established by CMS.

The bill extends the existing Independence at Home Medical Practice Demonstration Program pending implementation of the permanent program. In addition, the bill removes the limit on the number of beneficiaries that may participate in the demonstration program.

Actions Timeline

- **Jul 6, 2016:** Introduced in Senate
- **Jul 6, 2016:** Read twice and referred to the Committee on Finance.
