## **Jessica Kensky and Patrick Downes Act**

This bill requires the Department of Defense (DOD) to expand eligibility for its Secretarial Designee Program to include the provision of health care at military treatment facilities for: (1) victims of acts of terror that occur in the United States, and (2) U.S. residents who are victims of acts of terror outside the United States.

Individuals who become eligible for the program shall remain eligible on a space available and fully reimbursable basis in accordance with DOD policy governing such program. DOD may provide expedited program eligibility to individuals with severe injuries.

DOD may not release an individual who is receiving care under the program to a health care provider in the private sector until a comprehensive treatment plan is communicated to the individual and such provider.

DOD shall establish procedures to implement such program expansion, which shall include procedures for:

- conducting timely outreach and communication to local medical facilities after an act of terror in the United States;
- promptly contacting, coordinating, and providing medical expertise to such facilities that are treating serious injuries; and
- providing medical evaluations for victims who were exposed to blast and other types of injuries.

## **Actions Timeline**

---

- **Dec 7, 2016:** Introduced in Senate
- **Dec 7, 2016:** Read twice and referred to the Committee on Armed Services.
