Increased Authorizations for the Denver VA Medical Center Construction Project Act

This bill amends the Construction Authorization and Choice Improvement Act to increase the amount authorized for the replacement of the existing Department of Veterans Affairs (VA) Medical Center in Denver, Colorado.

In the case of any super construction project (expenditures exceeding \$100 million) the VA shall enter into an agreement with an appropriate non-VA federal entity to provide full project management services for the super construction project, including management over the project design, acquisition, construction, and contract changes.

The Veterans Access, Choice, and Accountability Act of 2014 is amended to reduce the aggregate amount of specified VA awards and bonuses for FY2016. (Existing award levels are maintained for each of FY2017-FY2024.)

The VA shall reduce the retirement annuity benefits of a senior executive employee who: (1) is convicted of a felony that influenced the individual's performance while employed in the senior executive position, and (2) is afforded notice and an opportunity for a hearing conducted by another federal department or agency.

The VA may issue an order directing a VA employee to repay in full or in part any award or bonus if: (1) the VA determines such repayment appropriate pursuant to specified regulations, and (2) the employee is afforded notice and an opportunity for a hearing conducted by another federal department or agency.

A VA decision regarding a repayment is final and not subject to review by other federal agencies or courts.

Actions Timeline

- **Sep 25, 2015:** Referred to the Subcommittee on Health.
- **Sep 24, 2015:** Introduced in House
- **Sep 24, 2015:** Referred to the Committee on Veterans' Affairs, and in addition to the Committee on Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.
