## **JCPOA Intelligence Enforcement Act of 2016**

This bill directs the Director of National Intelligence (DNI) to establish an integration cell among elements of the U.S. intelligence community to integrate intelligence for monitoring and enforcement of the Joint Comprehensive Plan of Action (JCPOA), which is the international agreement on Iran's nuclear program.

The cell must coordinate intelligence collection, integrate early warning systems with respect to potential violations, and identify intelligence gaps in monitoring for the JCPOA.

The cell must report to Congress annually regarding its awareness of, and its recommendations for better collection regarding, Iran's compliance.

The bill expresses the sense of Congress that the intelligence community should establish a joint fusion cell with the Gulf Cooperation Council to:

- combat Iran's malevolent regional activities, including its support for terrorist proxies, such as Hezbollah;
- disrupt illicit transfers of weapons and material in violation of United Nations Security Council Resolution 2231; and
- protect the territorial integrity of key partner nations.

The bill also expresses the sense of Congress that the DNI should establish a United States-Israel intelligence working group focused specifically on the Iranian threat.

## **Actions Timeline**

---

- **Apr 14, 2016:** Introduced in House
- **Apr 14, 2016:** Referred to the House Committee on Intelligence (Permanent Select).
