This bill amends title XIX (Medicaid) of the Social Security Act to exclude abuse-deterrent formulations of prescription drugs from the requirement that manufacturers of single-source or innovator drugs pay additional rebates to state Medicaid programs.

Under current law, the Centers for Medicare & Medicaid Services (CMS) must use predictive modeling and other analytic technologies to identify improper Medicaid claims. The bill prohibits a state agency from using or disclosing such technologies except for purposes of administering a state Medicaid program or Children's Health Insurance Program (CHIP). A state agency shall have in effect adequate data security and control policies to ensure that access to such information is restricted to authorized persons for authorized uses.

The bill places \$5 million in the Medicaid Improvement Fund to be available beginning in FY2021.

Actions Timeline

- **May 17, 2016:** Referred to the Subcommittee on Health.
- **May 6, 2016:** Referred to the Subcommittee on Health.
- **Apr 29, 2016:** Introduced in House
