### Summary (as of Dec 14, 2017)

#### Next Generation Grid Resources and Infrastructure Development Act or the Next Generation GRID Act

This bill amends the Public Utility Regulatory Policies Act of 1978 to (1) establish a right of interconnection for distributed energy resources, (2) require each electric utility to develop an electricity distribution resource plan, (3) require each state to consider non-wire alternatives for allowing an electric utility to recover costs associated with an electricity transmission and distribution project, (4) require the Department of Energy to establish a pilot program for a distribution system operator, and (5) require each state to consider the use of performance-based incentive mechanisms to achieve its public interest goals.

### Actions Timeline

- **Dec 14, 2017:** introduced in Senate
