Improve Data on Sexual Violence Act

This bill directs the Office of Management and Budget to establish an interagency working group to study federal efforts to collect data on sexual violence and to make recommendations on efforts to coordinate sexual violence data collection to produce complementary information, without compromising programmatic needs.

The working group shall consider:

- what activity constitutes different acts of sexual violence,
- whether reports that use the same terms for acts of sexual violence are collecting the same data on these acts,
- whether the context which led to such an act should impact how that act is accounted for in reports,
- whether the data collected is presented in a way that allows the general public to understand what acts of sexual violence are included in each measurement, and
- steps that agencies that compile reports relating to sexual violence can take to avoid double counting incidents.

Actions Timeline

- **May 17, 2018:** Received in the House.
