Friendly Airports for Mothers Act of 2017

This bill authorizes the Department of Transportation (DOT) to approve a grant application for an airport development project only if the DOT receives written assurances that the owner or operator of a large or medium hub airport will maintain a lactation area at each passenger terminal building of the airport behind the airport security screening area.

The bill defines "lactation area" to mean a room or other location in a commercial service airport for members of the public to express breast milk that:

- is shielded from view and free from intrusion from the public;
- has a door that can be locked;
- includes a place to sit, a table or other flat surface, and an electrical outlet;
- is readily accessible to and usable by individuals with disabilities; and
- is not located in a restroom.

DOT may approve a terminal development project for the construction or installation of a lactation area at a commercial service airport.

Actions Timeline

- **May 5, 2017:** Referred to the Subcommittee on Aviation.
- **May 4, 2017:** Introduced in House
- **May 4, 2017:** Referred to the House Committee on Transportation and Infrastructure.
