## **Nuclear Waste Policy Amendments Act of 2017**

This bill amends the Nuclear Waste Policy Act of 1982 to direct the Department of Energy (DOE) to initiate a program to consolidate and temporarily store commercial spent nuclear fuel during the development, construction, and operation of a permanent nuclear waste repository.

The bill addresses federal land withdrawal and related management issues, including the permanent withdrawal of specific federal land for repository use by DOE, updating the Nuclear Regulatory Commission licensing process and conditions for the repository, and limiting activities relating to developing a separate defense waste repository used for storing high-level radioactive waste and spent nuclear fuel derived from the atomic energy defense activities of DOE.

DOE may enter into agreements to provide benefits to state, local, and Tribal governments that might host or be affected by facilities related to storing nuclear waste.

The bill revises the method by which DOE funds its nuclear waste management activities through the collection and usage of the Nuclear Waste Fund.

DOE shall provide in-kind, financial, technical, and other appropriate assistance for safety activities related to the transportation of high-level radioactive waste or spent nuclear fuel.

The bill expresses the sense of Congress that the governments of the United States and Canada should not allow permanent or long-term storage of spent nuclear fuel or other radioactive waste near the Great Lakes.
